

Demo Trailer

REXA invites you to visit our latest demo trailer showcasing the best of our actuation solutions. Contact us to schedule a visit while the trailer is in your area. Visit our website event page to see the trailer schedule as it travels throughout North America! rexa.com/demotrailer

Products On Display:

X3R10000-90-1/2D-A

Rotary actuator mounted on a 6-inch butterfly valve and equipped with accumulator fail-safe demonstrating bi-directional surge.

X3L2000-4-C-P

Linear actuator configured to demonstrate positioning accuracy, repeatability and differential pressure monitoring.

X3L5000-6-1/2D(R)-P

Linear actuator equipped with redundant construction and configured to simulate a steam turbine governor application.

X3R2500-90-C-P

Rotary actuator mounted on an industrial louver damper for fired heater equipment. Equipped with differential pressure monitoring and a declutchable manual override.

**For parking & setup purposes the demo truck and trailer require a space of 8'W x 55'L with a clearance height of 12'.*
